TEACHERS BE REWARDED FOR FABULOUS EDUCATION ACTIVITIES

Have you been busy in and out of the classroom with young people aged 5-16 years and the local community? Let us know – there are prizes to be won!

We are looking for four winning case studies of inspiring lessons/activities which build bridges between science, school and local communities. Just submit a case study of your work with children and young people aged 5-16 years!

Each of the four winners will receive €400 for their school, as well as a trip to Copenhagen to attend ESOF 2014.

EXAMPLES OF CASE STUDIES

- Illustrate a local farming or fishing method used in your country, e.g. a day in life of a fisherman/farmer.
- Show how external factors such as lack of resources can affect food safety, e.g. refrigeration.
- Hold a debate on technology and future food.
- Investigate how genetically modified organisms (GMOs) could change the food supply.
- Illustrate an understanding of how geography and climate impact on the availability of food and/or drink in your country.

STEPS TO ENTER THE COMPETITION

STEP 1

Identify which topic area the activities address:

- Food;
- Agriculture;
- Fisheries;
- Biotechnology.

STEP 2

Create a case study (photographs, a poster or short video) of your activities.

STEP 3

Complete the nomination form and submit your case study (in English).
